## **Minneapolis Holistic Expo returns with top speakers, exhibitors**

The 2017 Minneapolis Holistic Expo, presented by Edge Life Expos & Events, will explore parallel universes, spirit guides, the soul, Pleiadian activations, and much more. The 17th annual expo returns on November 11 & 12 to Earle Brown Heritage Center in Brooklyn Center, MN, for two days of soulful exploration by noted local and internationally known speakers, free daily workshops, and 90 exhibitors offering unique gifts, intuitive readings, information on wellness and spirituality, and sample holistic healing sessions.

In addition, a special post-expo workshop will be presented November 13 & 14 by keynote speaker Christine Day.

“The energies of this planet have ramped up to sustain the evolution of the very young race we call human beings,” says Edge Life Producer Gary Beckman. “We like to resolve disagreements with force. But we have arrived at the reckoning, a crucial time of change, a time in which human consciousness will transcend its current state. We present to you in November an event that will offer you tools to wade through this craziness and step into our new paradigm of existence.”

Do parallel universes exist? Why do certain past historical events seem to have changed the way we remember them? Is this caused by a memory or psychological malfunction, or is there something real happening in our universe that is changing our past history? If so, what is the cause of this? What will this do to the future of our universe and our existence? Could this explain why many people today feel that time is speeding up and also causing an increase in our feelings of déjà vu? John DeSalvo’s new physical model of the Mandela Effect and parallel universes will try to explain all of this.
